ABOUT ME

Dynamic AI Developer with expertise in designing, training, and deploying deep learning models, creating web applications, and conducting comparative analyses. Skilled in solving complex problems with practical, scalable solutions. Experienced in leading impactful projects across various domains, including autonomous robotics and sustainable development initiatives. Known for innovation, collaboration, and delivering results that bridge technology and real-world applications.

SKILLS

- Deep learning
- Natural Language Processing (NLP) and audio signal processing
- ML optimization and testing
- Web app development
- Database management
- Data Science
- Data analysis

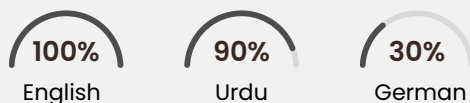

EXPERTISE

- Artificial Intelligence
- Web Development
- Data Science
- Statistical Analysis
- Business Intelligence
- Data Visualization
- Reporting
- Pitch Decks
- Presentation Design
- Decision-Making

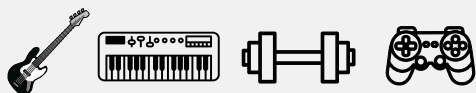

AWARDS

- 1st Position Zindigi Prize Startup Competition
- 1st Position GetInnovative4Impact
- Tied for 2nd Position IEEE STEP'24

LANGUAGES

INTERESTS

WORK EXPERIENCE

Data Scientist and AI Developer

Freelance

NOV 2022-PRESENT

- Built machine learning models for predictive analytics and optimization.
- Developed dashboards and web apps for data visualization.
- Conducted data cleaning, feature engineering, and analysis.
- Created pitch decks to present insights and solutions.
- Delivered AI-driven solutions for diverse industries.

Senior Claims Officer

Appedology Pvt. Ltd.

FEB 2022-SEP 2022

- Negotiated settlements for unpaid workers' compensation liens.
- Analyzed claims data to resolve disputes with insurance providers.
